

"Supremo" and "Excelso" are bean size descriptors for exportable coffee from Colombia, not variety or cupping profile.

Supremo preparation means the coffee beans are sized on screen 17, Excelso preparation are beans smaller than Supremo.

Excelso is different according to the destination where it is exported. There are four different types of Excelso coffee:

- Type "Klauss": screen 16.5 for Germany
- "Europa": screen 15 for France, Spain and Italy. Tolerance: 2.5% of beans between screens 12 and 15
- "Scandinavia": Screen 14
- "USA": screen 14 for the U.S. Tolerance of 1.5% of beans between screens 12 and 14.

Our goal is always offer Excelso coffee on the range of 80 to 85 points with excellent attributes.
