

Lo Mejor De Mexico #1 By Cecilia Avila Camberos - Finca Consolapan (GrainPro)

The farm belongs to the Camberos family since about 1930 and have always planted coffee and small amounts of sugar cane.

It is located at 1240 m in the region calls the High Mountains in the state of Veracruz.

This is bordered by the new road - Coatepec Xalapa to the South and old road Xalapa - Coatepec to the North

The land very fertile with an average annual rainfall of 1900 mm. The farm has coffee varieties Typica , Mundo Novo and Garnica planted in a pattern of shaded coffee production to keep the trees healthy.

The pickers are extremely disciplined, only picking ripe coffee beans. The use a wet fermentation process, the resulting beans are then given a second rinse and soak in rain water. The coffee is dried on raised beds. This is a totally organic process.

ID# 6213

Origin	Mexico
Region	Veracruz
Farm	Finca Consolapan
Variety	Tipica, Mundo Novo, Garnics
Altitude	1240 M
Proc. Method	Fully washed, soaked, and dried on raised beds

The farm production is advised through the AMSA's Carlos Sánchez since 2008.

The program includes tree management (pruning) , renovation of coffee plantations, shade management , clean and integrated pest management (phytosanitary control program CBB) application of dolomitic lime, foliar and soil fertilization . They do not use herbicides.

This land and these producers create truly world class coffee that is just now beginning to be recognized for their quality. They placed third in 2010 for this competition.
