

## SHG EP Baxtla (GrainPro)

Grupo de Productores de Cafe Sustentable de Baxtlawas formed in 2009. Sixteen producers banded together with the idea of achieving a better life for themselves and their families by increasing production and differentiating their product as quality, while at the same time improving the environment for the medium and long term. They created some standards of soil conservation, management of shade, specific rational fertilization and integrated management of pests and disease in harmony with the environment.

We first met this group after the harvest of 2014 through a cupping competition we held in Chiapas called "Lo Mejor De Mexico": They took seventh place and piqued our interest to visit them and support them. We visited again this harvest and hope we can continue to partner and support their efforts.

[Read more about our Mexico Regional Select program here.](#)

ID# 6967

Origin	Mexico
Region	Coatepec
Farm	16 families on 60 hectares
Variety	Typica, Mundo Novo, Cattura Rojo
