

This coffee is part of our "Origin Select Decaf" program. We send small blended lots of high quality Colombian coffee to get decaffeinated by E.A. Sugarcane Alcohol locally in Colombia.

Origin	Colombia
Proc. Method	E.A. Sugarcane Decaf

The fact that this lot is sourced by us first, then sent to get decaffeinated, is a big differentiator in the world of decaf coffee; most is purchased "spot" without knowing the input product. We hope you enjoy this industry leading decaf!
